

UKADR CONFERENCE 2022

 7th & 8th December

 Edinburgh Climate Change Institute,
Edinburgh

Disaster research and innovation at a time of global uncertainty

The UKADR annual conference is an opportunity for the UKADR community to come together to share research findings, discuss and debate topical challenges, take part in the AGM and to network.

The 2022 conference will be the first face-to-face UKADR event since the pandemic began. The theme is 'Disaster research and innovation at a time of global uncertainty'.

We hope this focus will encourage an inclusive discussion on major global challenges (e.g., the climate crisis, conflict and emerging from the pandemic) and the role of disaster research and innovation in a time of uncertainty.

Special Features

- Talks, discussion sessions, posters and ignite presentations.
- An opportunity to hear three talks from ECRs who received the highest scores from their oral poster presentations at the 2022 Dealing with Disasters conference in June.
- UKADR Annual General Meeting.

Call for Abstracts

We invite abstracts for oral and poster presentations at the symposium from case reports, concept notes, innovations, and original research, based on the following subthemes:

- Recovery and responding to the needs and priorities of people affected by disasters.
- Innovation in early warning systems.
- Multi-hazard approaches to building community resilience.
- Citizen science to better understand needs of underserved populations.
- Visioning the future for risk resilience and development.
- Innovative governance mechanisms for co-produced risk management and climate change adaptation.
- Multi-(hazard)-risk management approaches across disaster risk management and climate change adaptation.
- Capturing children's voices in pandemic mitigation and recovery anticipatory capital for future shocks.

There will also be an open call for abstracts on other topics.

Abstract Submission Timeline

Abstract submission deadline
(extended)

12 September 2022

Author notification of acceptance

26 September 2022

For abstract submission and guidelines, please visit:

www.ukadr.org/conference2022.html

For more information, please contact the conference organisers on, ukadr2020@ed.ac.uk

www.ukadr.org

Reconnect with your colleagues and make new connections. This is a face-to-face conference and online participation will not be possible.

UKADR CONFERENCE 2022

7th & 8th December

Edinburgh Climate Change Institute,
Edinburgh

Conference sessions

- Whose recovery? Recognising and supporting the voices of disaster-affected people
University of East Anglia (UEA)
- How can a 'supporting self-recovery approach' to humanitarian assistance realise safer and healthier homes after disaster?
Care International UK; CENDEP, Oxford Brookes University
- Managing global uncertainty with effective warnings
University College London
- Innovative research to build capacity of East African communities to natural hazard
University of Bristol
- The use of citizen science to understand societal responses and needs to natural hazard threats
National Oceanic and Atmospheric Administration (NOAA)
- Future visioning for risk resilience and development (not open for abstracts)
GCRF Hub, Tomorrow's Cities
- Innovative governance mechanisms for co-produced risk management and climate change adaptation
University of Edinburgh, Heriot-Watt University
- Capturing children's voices in pandemic mitigation and recovery - anticipatory capital for future shocks
UWE Bristol
- Multi-(hazard)-risk management approaches across disaster risk management and climate change adaptation
British Geological Survey
